

Hydraloop Sales & Installation Process 2025

1

Quote Request

The customer submits a request for a price estimate on a Hydraloop device, providing necessary details about their needs.

2

Send Quotation Package

A quotation package is sent to the customer, which includes:

- Quotation
- Recycle Ready Guide (with Pre-Checklist link)
- Sales Conditions & Warranty

3

Receive Purchase Order

Once the customer reviews the quotation and agrees to the terms, an official purchase order to proceed with the transaction is sent.

4

Submit Signed Recycle Ready Pre-Checklist

The customer signs the Recycle Ready Pre-Checklist with Hydraloop to confirm the site meets installation requirements before delivery.

5

Receive & Install Hydraloop device(s)

The Hydraloop device is delivered to the customer's location and installed according to specifications.

6

Complete & Sign Recycle Ready Confirmation Checklist

After installation the installer completes and signs the Recycle Ready Confirmation Checklist to confirm everything is set up correctly.

7

Schedule Verification (min. 5 days in advance)

The customer schedules a verification appointment with Hydraloop at least five days in advance to ensure system compliance and readiness.

8

Verification with a Hydraloop Sales Engineer

A Hydraloop Sales Engineer conducts the final verification, checking that the system is properly installed and meets all operational standards.

9

Conduct Connection Tests

Testing is performed to ensure proper connections, including checking the inlet and outlet for functionality and verifying that no cross-connections occur.
